PROFILE

Graduate economist with an MRes in Economics and Public Policy with training in econometrics (DiD, IV, RDD, panel data) and a background in political science. Interested in competition, innovation, and industrial policy.

EDUCATION

2025 – 2026

MRes in Public Policy (Applied Economics)

Université Paris 1 Panthéon-Sorbonne

Second year of a master's degree in economics and public policy with advanced training in public economics and public policy:

- Econometrics and quantitative methods: DiD, panel data, IV, RDD, synthetic control.
- Advanced training in economics and public policy in fields such as health economics, environment economics, taxation, competition policy, and innovation.

Master's thesis: "Crisis and Private R&D Expenditure: An Empirical Analysis of Large Firms' Trajectories Following the 2008 Financial Crisis". Empirical thesis using the EU Industrial R&D Investment Scoreboard (JRC) and an event-study design.

2024 – 2025

Master's degree in Applied Economics

Université Paris 1 Panthéon-Sorbonne

First year of a master's degree in economics and public policy with a focus on advanced courses in microeconomics, public economics and public policy, and political economy such as health economics, industrial organization, digital economics, crisis economics.

- Econometrics and quantitative methods: logit/probit models, OLS and GLS, and panel data.
- "The factors behind long-term unemployment in France". Dataset: enquête Emploi 2022. Empirical strategy: logit.
- "The determinants of the taxe sur le foncier bâti (property tax) in French municipalities". Empirical strategy: GLS (Generalized Least Squares).

Master's thesis: "The effects of fiscal policies during crises: the case of EU Member States" (academic literature review).

2021 – 2024

Bachelor's degree in Political Science

Université Libre de Bruxelles

Multidisciplinary degree in political science, with coursework in economics and economic policy, European and public policies, public administration and public law, international relations. I developed strong research skills, critical thinking, rigor, and the ability to synthesize complex concepts and ideas.

2020 – 2021

Preparatory year in Mathematics

Institut Saint-Joseph de Charleroi

Post-secondary preparatory year with intensive mathematics training.

PROFESSIONAL EXPERIENCE

2025 – 2026
